Preface

Amala Cancer Research Centre established in 1982 is a recognized Centre for Ph.D. studies in Biochemistry, Immunology, Microbiology and Radiation Biology by Mahatma Gandhi University of Calicut and Kerala University of Health Sciences. Hundred students have completed their Degree from this centre and presently they are working at various scientific institutions or Universities all around the world. Although most of the students communicate to our Centre and the number of students passing out increase every year, it becomes difficult to know each other. With these ideas in mind, we had our first, second and third Alumni Meeting in 2003, 2008 and 2013 at our Centre, respectively. It was suggested that Alumni should meet every five years. Latest Directory of the Alumni has been published in our website also and we hope this will be an easy access for communication.

Padmabhooshan Fr. Gabriel CMI
(Founder Director)

*Many things have changed over the years ,
but you are still the same great parson you have always been.
Our founding director,
guiding light and visionary par excellence.....*

Flowers may fade, but fragrant memory lingers....
